ANALYSIS OF DATA

In June, 1982, public, institutional and special libraries were mailed annual report forms. School forms were mailed in April, 1982. Academic library information was obtained from U.S. Department of Education forms distributed by the Board of Regents for Higher Education.

Response to mailings to public, institutional and academic libraries is quite good. Response to mailings to schools is especially inadequate and the public libraries schools are those which responded.

Public libraries served 2,560,875 persons, leaving 464,415 unserved. The per capita local support, figured only on basis of the population served, is $5.62. With the addition of other sources of support, the total per capita support is $7.57.

Expenditures

Public libraries during FY 1982 expended $17,426,634. Of that total, 52% was expended on salaries and 14% on materials.

Resources

Volumes owned by reporting public libraries at the end of the year totalled 4,107,499 or 1.4 volumes per capita. One volume was added for every ten residents on the average. Each of these figures is far less than the recommended levels.

Circulation

The reporting public libraries had a circulation during the year of 9,244,445 items, or 3 items per capita. The most recent available national circulation per capita is 4.5 items. These same libraries had 1,179,633 registered borrowers, 39 percent of the population of the state. Both items far exceed last year's reported figures.

Personnel

Those public libraries supplying data had 735 staff members. Of this number, 79 had a masters degree in library science. This is far below the level recommended.

NON-PUBLIC LIBRARIES (ACADEMIC, INSTITUTIONAL, SCHOOL AND SPECIAL)

Expenditures

Academic libraries during FY 1982 expended $21,956,500 the 69 reporting schools expended $1,831,846 and the 20 special libraries which reported expended $2,069,491. Institutional libraries expended $507,345.

Resources

A total of 8,252,359 volumes were owned by reporting non-public libraries at the end of 1982. The same libraries added 296,065 volumes to their holdings during the year. Together they subscribe to 74,075 periodicals.

Circulation

Total books and non-book library materials circulated by the reporting academic libraries during 1982 was 2,094,596 items. The reporting school libraries circulated 361,698 volumes and the special libraries circulated 191,871 items. The institutional libraries circulated 117,015 items.

Personnel

The personnel in the reporting libraries of these three types included 897 full time equivalents in all positions and the full time equivalent of 337 persons with a masters in library science or school certification in library science.

Hours open

Academic libraries were open an average of 72.48 hours per week. Reporting school libraries were open 35.22 hours per week average and special libraries were open an average of 44.7 hours weekly.

PUBLIC LIBRARY STATISTICS

June 1, 1981 - June 30, 1982

SOURCE OF STATISTICS: Annual Report, FY82
SOURCE OF INCOME: Income is reported by original public library source, e.g., Revenue Sharing funds are listed as Federal.

POPULATION FIGURES: 1980 U.S. Census data

SYMBOLS: NRK No record kept
x Library provides

ANALYSIS OF DATA

In June, 1983, public, institutional and special libraries were mailed annual report forms. School forms were mailed in April, 1983. Academic library information was obtained from U.S. Department of Education forms distributed by the Board of Regents for Higher Education.

Response to mailings to public, institutional and academic libraries is quite good. Response to mailings to schools is especially inadequate and the schools listed are those which responded.

PUBLIC LIBRARIES

Public Libraries served 2,560,875 persons, leaving 464,415 unserved. All public library statistics are figured using this per capita base.

Income

The per capita local support is $7.13. With the addition of other sources of support, the total per capita support is $8.34, up 77 cents from the year before.

Expenditures

Public libraries during FY 1983 expended $20,049,863. Of that total, 55% was expended on salaries and 17% on materials.

Resources

Volumes owned by reporting public libraries at the end of the year totalled 4,424,152 or 1.7 volumes per capita. One volume was added for every ten residents on the average. Each of these figures is far less than the recommended levels.

Circulation

The reporting public libraries had a circulation during the year of 10,405,709 items, or 4.1 items per capita. The most recent available national circulation per capita is 4.5 items. These same libraries had 1,196,424 registered borrowers, 40 percent of the population of the state. Both items exceed last years's reported figures.

Personnel
Those public libraries supplying data had 813 FTE staff members. Of this number, 98 had a masters degree in library science. This is far below the level recommended.

NON-PUBLIC LIBRARIES (ACADEMIC, INSTITUTIONAL, SCHOOL AND SPECIAL)

Expenditures
Academic libraries during FY1983 expended $21,956,500, the 65 reporting schools expended $1,786,640 and the 18 special libraries which reported expended $6,922,276. Institutional libraries expended $614,218.

Resources
A total of 8,444,869 volumes were owned by reporting non-public libraries at the end of 1983. The same libraries added 321,830 volumes to their holdings during the year. Together they subscribe to 76,607 periodicals.

Circulation
Total books and non-book library materials circulated by the reporting academic libraries during 1982 was 2,101,441 items. The reporting school libraries during 1983 circulated 338,620 volumes and the special libraries circulated 202,273 items. The institutional libraries circulated 146,430 items.

Personnel
The personnel in the reporting libraries of these three types included 1,030 full time equivalents in all positions and the full time equivalent of 377 persons with a masters in library science or school certification in library science.

Hours Open
Academic libraries were open an average of 72.44 hours per week. Reporting school libraries were open 36 hours per week average and special libraries were open an average of 44.3 hours weekly.

PUBLIC LIBRARY STATISTICS

July 1, 1982 - June 30, 1983

SOURCE OF STATISTICS:	Annual Report, FY83
SOURCE OF INCOME:	Income is reported by original public library source, e.g., Revenue Sharing funds are listed as Federal.
POPULATIONS FIGURES:	1980 U.S. Census data
SYMBOLS:	NRK No record kept x Library provides
